PROFESSIONAL SUMMARY

Aspiring Software Developer with a strong foundation in Web Development and a versatile technical stack including Python, Java, and C++. Experienced in building user-centric applications, ranging from fintech solutions for agriculture to AI-driven support tools. Focused on writing clean, efficient code and solving complex logical problems.

TECHNICAL SKILLS

- **Languages:** Python, Java, C, C++, HTML, CSS, JavaScript, Node.js, Express.js, React.js, MongoDB
- **Tools & Frameworks:** Web Dev Tools, Git, GitHub, VS Code, Linux

TECHNICAL PROJECTS

Faisla – Fintech Game for Farmers

Python, UI Design

- Developed an interactive financial literacy application designed specifically for the farming community.
- Built logic to simulate real-world agricultural financial decisions and risk management.
- Focused on a simplified, accessible UX/UI for users with varying levels of technical literacy.

Customer Support AI

Python, AI/ML

- Engineered an automated AI assistant to handle and resolve common customer inquiries efficiently.
- Integrated natural language processing logic to improve response accuracy and user satisfaction.

SkillSwap App

Web Development, Git

- Created a peer-to-peer marketplace platform allowing users to exchange services and technical skills.
- Utilized Git and GitHub for version control and project documentation.

EDUCATION

B. Tech Artificial Intelligence and Data Science

Rajalakshmi Institute of Technology

Expected Graduation: 2028

Chennai, India

INTERESTS

- Open-source contribution, Data Analytics.
